

Notice of Construction

Esquesing Line Slope Stabilization

The Town of Milton's contractor (R&M Construction) will be rehabilitating the creek (tributary to Sixteen Mile Creek) and slope along the east side of Esquesing Line, between 5 Side Road and James Snow Parkway. The scope of work includes ditching, earth work, channel realignment, slope stabilization, tree protection, plantings and minor shoulder work. There may be a lane closure during working hours to facilitate some of the shoulder work; however, we do not anticipate any significant impacts to traffic on Esquesing Line during this work.

Monday, August 28, 2017 - Friday, September 8, 2017

The work schedule is subject to change due to weather and construction scheduling. For updates, visit www.milton.ca/roads and the Town's Facebook and Twitter feeds.
